Item 7.01 Regulation FD Disclosure

On November 18, 2019, Mattel, Inc. (“Mattel” or the “Company”) issued a press release announcing that it priced its offering of \$600,000,000 aggregate principal amount of 5.875% Senior Notes due 2027 (the “Notes”) in a private offering (the “Offering”). The closing of the Offering is expected to occur on November 20, 2019, subject to customary closing conditions. A copy of the press release is furnished as Exhibit 99.1 hereto. This exhibit is incorporated herein by reference. The Notes are being sold in a private placement to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the “Securities Act”), and to non-U.S. persons outside the United States under Regulation S under the Securities Act.

This Current Report on Form 8-K, including the information contained in Exhibit 99.1, does not constitute an offer to sell, or the solicitation of an offer to buy, any securities and shall not constitute an offer, solicitation or sale in any jurisdiction in which such offer, solicitation or sale would be unlawful.

This Current Report on Form 8-K, including Exhibit 99.1, contains a number of forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The use of words such as “anticipates,” “expects,” “intends,” “plans,” “confident that” and “believes,” among others, generally identify forward-looking statements. These forward-looking statements are based on currently available operating, financial, economic and other information, and are subject to a number of significant risks and uncertainties. A variety of factors, many of which are beyond Mattel’s control, could cause actual future results to differ materially from those projected in the forward-looking statements. Specific factors that might cause such a difference include, but are not limited to: (i) Mattel’s ability to design, develop, produce, manufacture, source and ship products on a timely and cost-effective basis, as well as interest in and purchase of those products by retail customers and consumers in quantities and at prices that will be sufficient to profitably recover Mattel’s costs; (ii) downturns in economic conditions affecting Mattel’s markets which can negatively impact retail customers and consumers, and which can result in lower employment levels, lower consumer disposable income and spending, including lower spending on purchases of Mattel’s products; (iii) other factors which can lower discretionary consumer spending, such as higher costs for fuel and food, drops in the value of homes or other consumer assets, and high levels of consumer debt; (iv) potential difficulties or delays Mattel may experience in implementing cost savings and efficiency enhancing initiatives; (v) other economic and public health conditions or regulatory changes in the markets in which Mattel and its customers and suppliers operate, which could create delays or increase Mattel’s costs, such as higher commodity prices, labor costs or transportation costs, or outbreaks of disease; (vi) currency fluctuations, including movements

in foreign exchange rates, which can lower Mattel’s net revenues and earnings, and significantly impact Mattel’s costs; (vii) the concentration of Mattel’s customers, potentially increasing the negative impact to Mattel of difficulties experienced by any of Mattel’s customers, including the bankruptcy and liquidation of Toys “R” Us, Inc., or changes in their purchasing or selling patterns; (viii) the future willingness of licensors of entertainment properties for which Mattel currently has licenses or would seek to have licenses in the future to license those products to Mattel; (ix) the inventory policies of Mattel’s retail customers, including retailers’ potential decisions to lower their inventories, even if it results in lost sales, as well as the concentration of Mattel’s revenues in the second half of the year, which coupled with reliance by retailers on quick response inventory management techniques increases the risk of underproduction of popular items, overproduction of less popular items and failure to achieve compressed shipping schedules; (x) the increased costs of developing more sophisticated digital and smart technology products, and the corresponding supply chain and design challenges associated with such products; (xi) work disruptions, which may impact Mattel’s ability to manufacture or deliver product in a timely and cost-effective manner; (xii) the bankruptcy and liquidation of Toys “R” Us, Inc. or other of Mattel’s significant retailers, or the general lack of success of one of Mattel’s significant retailers which could negatively impact Mattel’s revenues or bad debt exposure; (xiii) the impact of competition on revenues, margins and other aspects of Mattel’s business, including the ability to offer products which consumers choose to buy instead of competitive products, the ability to secure, maintain and renew popular licenses and the ability to attract and retain talented employees; (xiv) the risk of product recalls or product liability suits and costs associated with product safety regulations; (xv) changes in laws or regulations in the United States and/or in other major markets, such as China, in which Mattel operates, including, without limitation, with respect to taxes, tariffs, trade policies or product safety, which may increase Mattel’s product costs and other costs of doing business, and reduce Mattel’s earnings; (xvi) failure to realize the planned benefits from any investments or acquisitions made by Mattel; (xvii) the impact of other market conditions, third party actions or approvals and competition which could reduce demand for Mattel’s products or delay or increase the cost of implementation of Mattel’s programs or alter Mattel’s actions and reduce actual results; (xviii) changes in financing markets or the inability of Mattel to obtain financing on attractive terms (xix) the impact of litigation or arbitration decisions or settlement actions; (xx) the closing of this private offering of the Notes; (xxi) uncertainty from the expected discontinuance of LIBOR and transition to any other interest rate benchmark; (xxii) an inability to remediate the material weakness in Mattel’s internal control over financial reporting or additional material weaknesses or other deficiencies in the future or the failure to maintain an effective system of internal controls; and (xxiii) other risks and uncertainties as may be described in Mattel’s periodic filings with the Securities and Exchange Commission, including the “Risk Factors” section of Mattel’s Annual Report on Form 10-K/A for the fiscal year ended December 31, 2018, and Mattel’s Quarterly Reports on Form 10-Q for fiscal year 2019, as well as in Mattel’s other public statements. Mattel does not update forward-looking statements and expressly disclaims any obligation to do so, except as required by law.

In accordance with General Instruction B.2 of Form 8-K, the information in this Item 7.01, including Exhibit 99.1, shall not be deemed to be “filed” for purposes of Section 18 of the Securities and Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liability of that section, and shall not be incorporated by reference into any registration statement or other document filed under the Securities Act, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

Mattel, Inc. Announces Pricing of Private Offering of Senior Notes Due 2027

EL SEGUNDO, Calif., November 18, 2019 — Mattel, Inc. (NASDAQ: MAT) (“Mattel” or the “Company”) announced today that it has priced the previously announced offering of \$600,000,000 aggregate principal amount of 5.875% Senior Notes due 2027 (the “Notes”). The closing of the offering is expected to occur on November 20, 2019, subject to customary closing conditions. The Notes will be guaranteed on a senior unsecured basis by all of the Company’s existing and future wholly owned domestic restricted subsidiaries that are borrowers or guarantors under its senior secured revolving credit facilities. The Company intends to use the net proceeds from the sale of the Notes, plus cash on hand, to redeem and retire all of its 4.350% Senior Notes due 2020 and 2.350% Senior Notes due 2021 and pay related prepayment premiums and transaction fees and expenses.

The Notes are being sold in a private placement to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the “Securities Act”), and to non-U.S. persons outside the United States under Regulation S under the Securities Act. The Notes and related guarantees have not been registered under the Securities Act, and unless so registered, may not be offered or sold in the United States absent registration or an applicable exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and other applicable securities laws.

This press release is neither an offer to sell nor a solicitation of an offer to buy the Notes, nor shall there be any sale of the Notes in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to the registration or qualification under the securities laws of any such jurisdiction. This notice is being issued pursuant to, and in accordance with, Rule 135c under the Securities Act.

Forward-Looking Statements

This press release contains a number of forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995.
